SUMMARY

Motivated Computer Science student at FUUAST with a strong passion for Data Science, Machine Learning, and Artificial Intelligence. Skilled in data analysis, programming, and building intelligent solutions. Eager to apply my knowledge to real-world problems and continuously grow through hands-on projects and learning.

SKILLS

PROGRAMMING

• Python • C++ • JavaScript

DATA SCIENCE

• Pandas • NumPy • Matplotlib
• Data Visualization • Machine Learning

WEB DEVELOPMENT

• HTML5 • CSS3 • Responsive Design

TOOLS & TECHNOLOGIES

• Git & GitHub • VS Code • Linux

SOFT SKILLS

• Problem Solving • Analytical Thinking
• Communication • Fast Learning
• Team Collaboration

LANGUAGES

• English (Professional) • Urdu (Native)

CERTIFICATIONS

• Python for everybody
• Certified Data Scientist
• Introduction to Modern AI
• Machine Learning Basics

All certifications completed through
CISCO Networking Academy

EDUCATION

Federal Urdu University of Arts, Science & Technology (FUUAST)
Bachelor of Science in Computer Science

2025 – Present | Current Semester: 3rd Semester

Relevant Coursework:

- Data Structures & Algorithms
- Computer Architecture & Organization
- Differential Equations
- Discrete Structures
- Object Oriented Programming
- Technical & Business Writing

EXPERIENCE

Self-Learning AI/ML Trainee

2023 – Present

Personal Development

- Building AI and Data Science projects to strengthen practical skills.
- Learning Machine Learning algorithms and applying them on real datasets.
- Working with data analysis, visualization, and model evaluation.
- Continuously improving problem-solving and programming expertise.

Data Science Intern

1st May – 30th May, 2026 (1 Month)

Code Alpha

- Worked on data analysis and visualization tasks using Python.
- Performed data cleaning, preprocessing and exploratory data analysis.
- Created dashboards and reports to present analytical insights.
- Gained practical exposure to real-world data science workflow.

PROJECTS

1. Data Analysis Dashboard

Created interactive dashboard for data visualization and analysis using Python, Pandas, and Matplotlib to derive meaningful insights.

Python Pandas Matplotlib Data Visualization

2. Hospital Management System

Developed a management system to handle patient records, appointments, and basis hospital operations using C++.

C++ OOP File Handling Data Structures

3. E-Commerce Website

Built a responsive e-commerce website with product listings, search, filters, and cart functionality using system web technologies.

HTML5 CSS3 JavaScript Responsive Design

4. Personal Portfolio Website

Designed and developed my personal portfolio to showcase my skills, projects, and achievements with a modern UI/UX.

HTML5 CSS3 JavaScript UI/UX

SOFT SKILLS

Problem Solving
